MY PERSONAL PROJECTS

SCHOOL FUNDS MANAGEMENT SYSTEM

Java Project | Summer 2023

- Basic Management System based on OOP Architecture.
- Managing employee salaries and details, and student fees and details

GAME STORE INVENTORY

Python Project | Spring 2021

- Console-based management system.
- Managing products, their Inventory, and customer details.
- File-handling used to store data (Initially).
- Switched to MySQL (Microsoft) afterwards.

MINI COMPILER

C Prime Project | Fall 2023

- This project involves creating a C program to simulate the initial phases of a compiler. The program processes arithmetic expressions following these stages:
- Phase 1: Preprocessing
- Phase 2: Lexical Analysis
- Phase 3: Syntax Analysis
